

Guest lecture – Data Analysis

DATA SCIENCE AND TECHNICAL SOCIAL NETWORKING

Karthik Srinivasan

Doctoral student (2nd Year) at University of Arizona

EXTC - KJSCE (2005-2009)

17th July, 2015

EXTC Department – K J Somaiya College of Engineering, Mumbai

CONTENTS OF TODAY'S TALK

Introduction to Data Science (DS)

- What is it?
- Why should I care?
- The Economics of DS

The joy of technical networking

About the speaker - Hitchhiker's guide to the galaxy

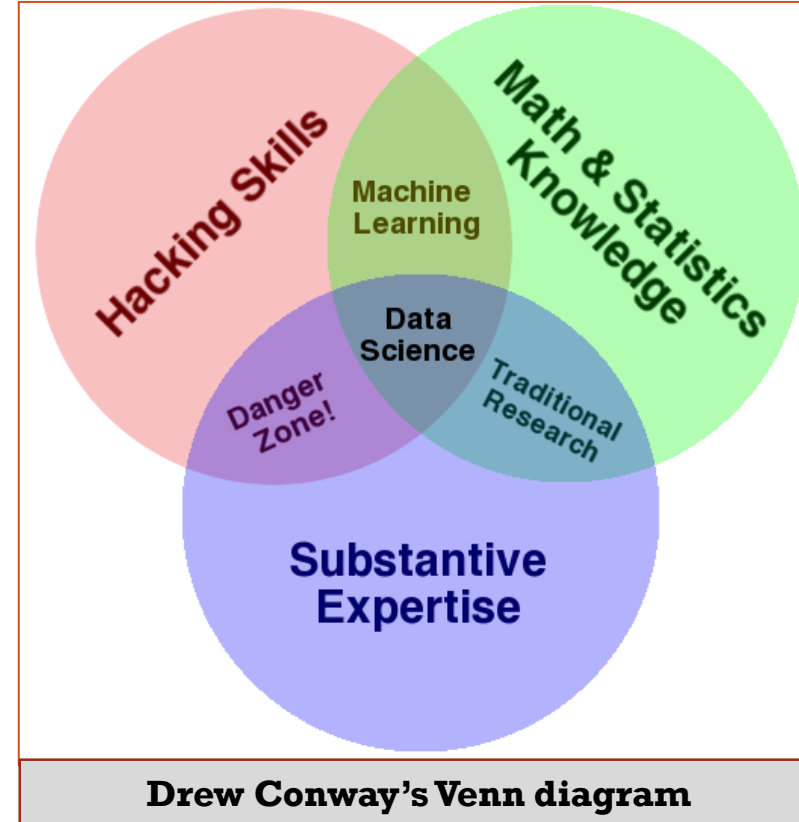

Discussion and questions

WHAT IS DATA SCIENCE?

Data scientists are the people who understand how to fish out answers to important business questions from today's tsunami of unstructured information

- From HBR article "Data Scientist: The Sexiest Job of the 21st Century" (2012)

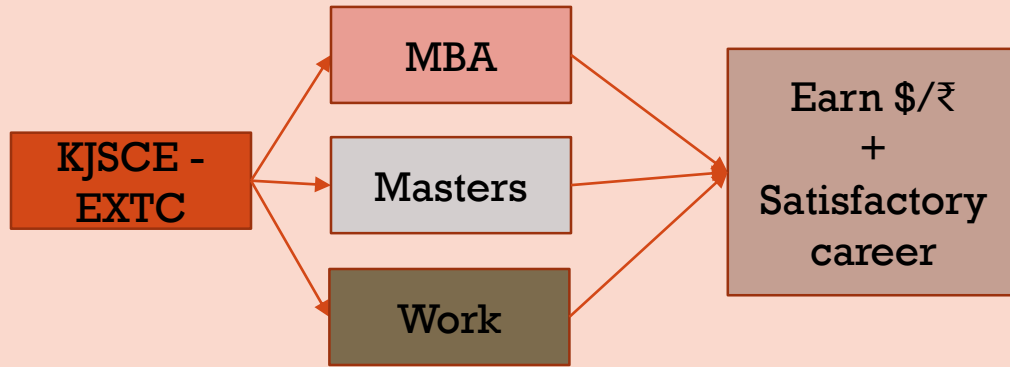

Associated terms for the green circle: Machine learning, Data mining, Data analysis, Big Data, Large scale data analysis, Statistical learning, Operations research, Decision models, Econometrics, Business Analytics, Business Intelligence, MIS, deep learning, web analytics, scraping, social media analytics

WHY DATA SCIENCE? - A CAREER PERSPECTIVE

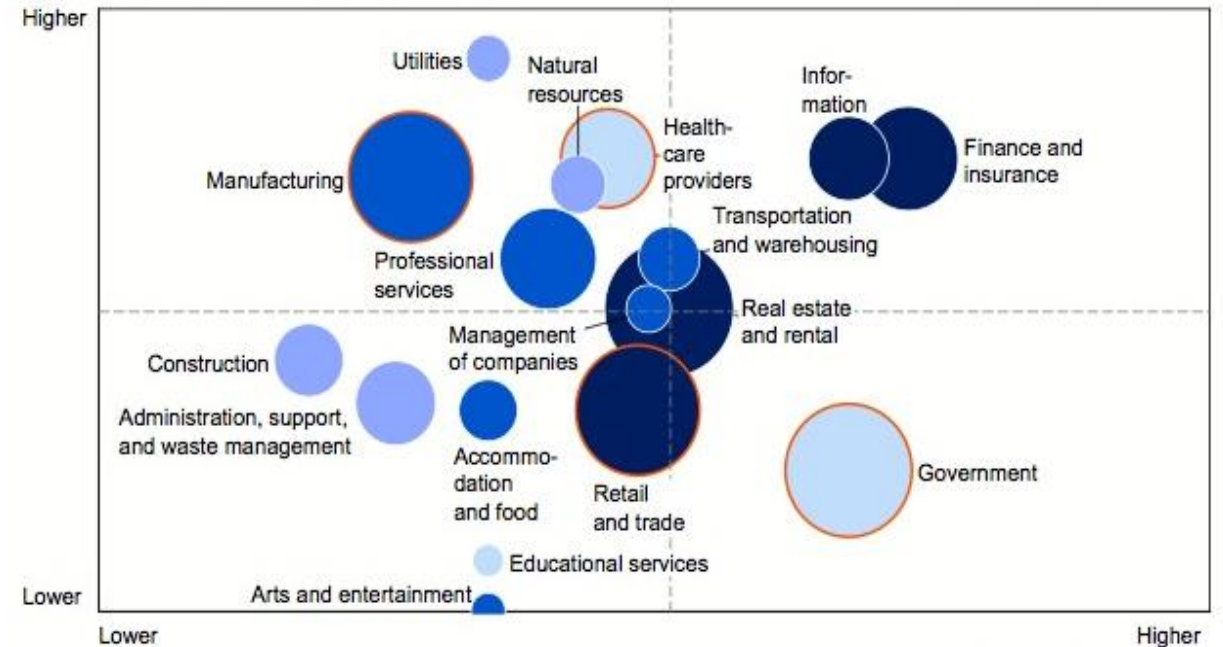

SUPPLY

Dream job OR/AND Better chances of getting admission in good programs OR/AND Stable career development

A Data Scientist, IT earns an average salary of ₹ 618,430 and \$ 92,000 in US per year ([source: Payscale.com](https://www.payscale.com))

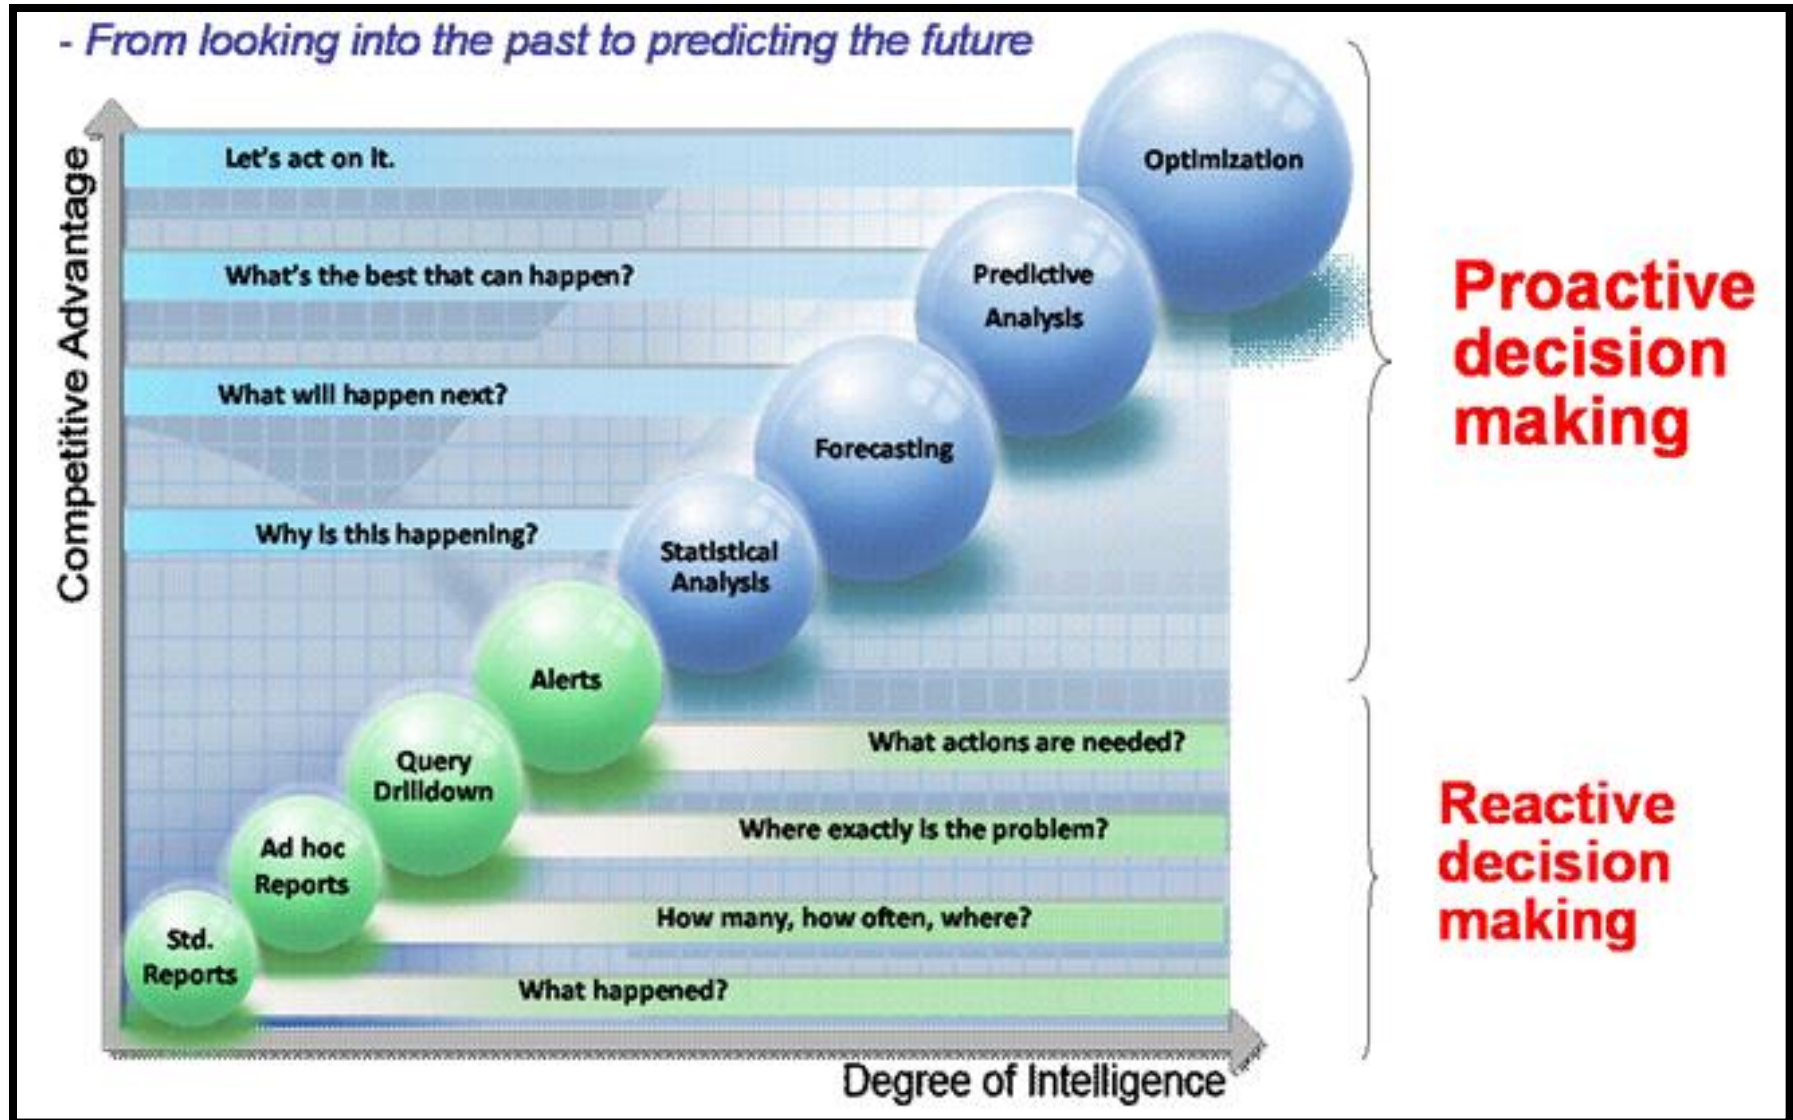

DEMAND

Source: McKinsey Global Institute on Data science in US economy

US (alone) will experience a shortage of 190,000 skilled data scientists by 2018 - McKinsey

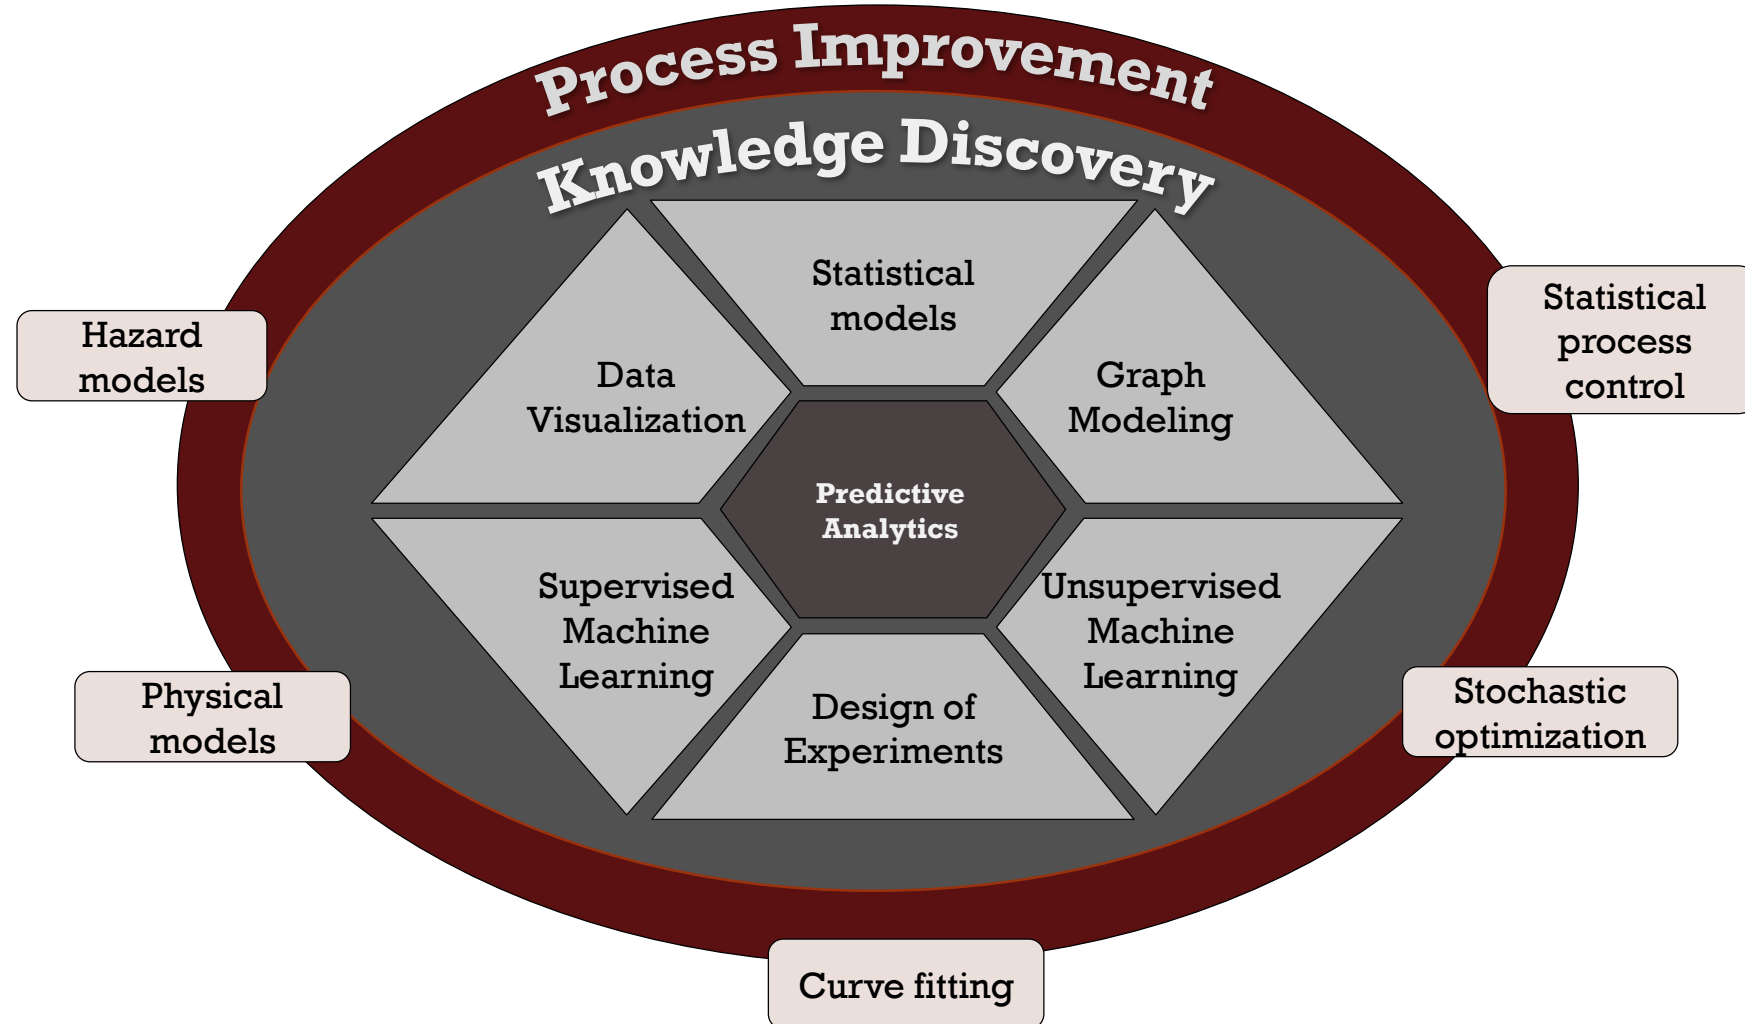

EVERY COMPANY WANTS TO BE SMART

Source: ST Electronics accessed at

<http://www.stee.stengg.com/group/infosoftware/solutions/egov/business.html#>

An example: Data science in Manufacturing

The joy of technical networking - Become a responsible e-citizen

How: Use and contribute to

- Open source
- Stack Exchange
- Wikipedia
- Twitter
- Github
- Youtube
- LinkedIn
- Topic blogs

Why:

- You find your own answers and become aware of current affairs in technology
- 'Power' employers lookout for active contributors
- You realize how much you know in the global workforce in your domain
- Exponential career paths of open-source contributors

About me: The Earnest learner

Current toolset

- Statistical learning & Data Mining
- Graphical models
- Network analysis
- Decision models
- Design of experiments

Keen to learn

- Big data architecture
- Natural language processing
- High-dimensional analysis
- Advanced visualizations

Current Research Area: Environment impact on individual well-being in offices

My past adventures:

accenture

BOSCH

Eller
